

**JYROJETS SET TO RELEASE THEIR NEW SINGLE
DEAD ON ARRIVAL ON 9TH JUNE 2008**

“This is the year Jyrojets deserve to be lifted into orbit”

Daily Record

Hotly tipped Inverness five piece **Jyrojets** release their brand new highly anticipated download only single **Dead On Arrival** via Songphonic Records on **9th June 2008**.

Appearing on the soundtrack to Cannes featured Russian independent film 20 Cigarettes, set for release in the UK in June, Dead On Arrival is a rocknroll call to arms. Growing in intensity from the heady feedback laden intro to the climactic chorus, Dead On Arrival is a tale of paranoia and despair. Characteristic of the band’s vast, anthemic sound with which Jyrojets have rocked audiences in small venues and stadiums alike; Dead On Arrival was produced by Osman Kent and Nick Mitchell at London’s Songphonic Studios.

After growing up listening to Nirvana on old, tinny Walkman headphones, best friends Colin and Martin decided to form a band in what was at the time a musically derelict Inverness. It was after being featured on a Music Week covermount CD that Jyrojets were snapped up by the Songphonic label kicking off the buzz around the band, which has escalated ever since.

Dead On Arrival is the third single to be taken from Jyrojets self titled debut album, which is released on 16th June as a download and 23rd June as a physical release. Watch this space, 2008 is going to be Jyrojets year.

Dead On Arrival is released by Songphonic Records on 9th June 2008.
